**IHS Jane's impartial intelligence and insight products and services are second to none.**

IHS Jane's has built a global reputation for excellence by providing impartial, accurate and trusted defence and security intelligence and insight on:

- Global defence equipment requirements and specifications
- Global military and foreign forces capabilities and future requirements
- Global risk analysis and threat assessments
- Global defence industry activity, procurement forecasts and budget allocation
- Detailed transportation equipment, services, systems, and market views
- Accurate and thorough guidance, handbooks and practical guides for the safety planning community

IHS Jane's integrates news, reference, analysis and imagery into centralised, online intelligence centres that focus on key areas, including:

- Defence equipment and technology
- Defence industry and markets
- Defence forecasts, budgets and procurement
- Military and security assessments
- Terrorism and insurgency
- Chemical, biological, radiological and nuclear assessments

# Defence Intelligence Centres

## IHS Jane's Defence Overview

Integrating defence news, reference and analysis into four centralised, online databases — delivering intelligence and insight you can trust.

For more than 100 years, the name Jane's has been synonymous with trusted and accurate open source intelligence on defence-related matters. No other single source offers more comprehensive or reliable insight into every aspect of global defence.

Since 1898, IHS Jane's has been the ultimate reference source for defence and aerospace information. More than a century later, as the need for better information and insight has grown exponentially, IHS Jane's has evolved into a world leading provider of intelligence and analysis on national and international defence, security and risk developments.

With an unrivalled reputation for accuracy, authority and impartiality, IHS Jane's now boasts one of the most up-to-date, extensive and detailed intelligence centres of defence news, reference, analysis and imagery available in the world today.

Jane's Defence Intelligence Centres feature:

- Enhanced navigation
- New search options
- Subject categorisation
- E-mail alerts
- Saved searches

Now access to IHS Jane's vast resources is faster and easier than ever.

### Intelligence Centre Online Seminars

All Intelligence Centre subscribers now benefit from the unique opportunity to have contact with IHS Jane's defence and security analysts and editors. Our regularly-scheduled 60-minute Online Seminars include an open Q&A session during which you can explore and discuss the topic with our experts in the level of detail driven by your requirements. In addition all events are recorded and are available for you to download, or listen to again.

Intelligence Centre Online Seminars are also available to non-Intelligence Centre Subscribers for just £199 (+VAT for UK customers only). Please visit [www.janes.com/events](http://www.janes.com/events) for more details of how to register.

## Defence Equipment and Technology Intelligence Centre

The expert resource for competitive defence and aerospace equipment and technology information.

Identify, assess, integrate and review equipment specifications, capabilities, platforms and versions. Improve the effectiveness of your decision-making with extensive spreadsheets and tables that deliver one-click access to detailed roles, designators, inventories and programmes. Acquire an indispensable perspective on industry trends through market analysis within Jane's Executive Overviews.

An intuitive web interface delivers the fastest access to this vital intelligence we have ever offered. Subject-based searches and categorised results quickly focus on the relevant information.

Key subject categories include:

- Air, Land, Sea and Space Vehicles & Systems
- Propulsion Systems
- Weapon and Ordnance Systems
- Radar and Electronic Warfare Systems
- Electro-Optic Systems
- C4ISR and Other Warfare Systems
- NBC/CBRN Systems
- Simulation and Training Systems
- Internal Security Equipment

This comprehensive service also provides a selection of data presented in an easy-to-use downloadable format, ready to use in your own reports and presentations.

### Targeted content for these key tasks:

Business Development • Capability Assessment • Competitive Intelligence • Customer Acquisition • Defence Analysis • Future Planning • Military Operations • OSINT Analysis • Product Development/Engineering • Research & Development • Threat Quantification

# Defence Industry and Markets Intelligence Centre

The authority for international, competitive market information within the defence and aerospace industries.

Understand country capabilities, potential requirements and future trends with country-by-country defence budget and spending analysis. Get a perceptive view into the world of defence through interviews with senior military, political and business leaders. Improve the effectiveness of your decision-making with organisational details on relevant associations, governments, armed forces, corporations and educational centres.

Key content areas include:

- National Defence Policies and Budgets
- Financial News, Mergers and Acquisitions
- Company Profiles
- Interviews with Prominent Figures in the Defence Sector
- Market Overviews

This comprehensive service integrates all defence and aerospace market information with industry-wide news and analysis. It also provides insight into specific markets through expert executive overviews and comprehensive industry directories.

## Targeted content for these key tasks:

Business Development • Business/Market Analysis  
• Competitive Intelligence • Customer Acquisition • Defence Analysis • Military Operations • OSINT Analysis • Product Development/Engineering • Project Management • Research & Development • Training

## Jane's DS Forecast

The most comprehensive and intuitive defence and aerospace market forecasting solution available

Jane's DS Forecast is the market-leading analytical tool for strategic planners, business developers and analysts within the defence and aerospace industry. It offers an extensive bottom-up database of global product-level 10-year forecasts, covering 19 markets based around platform types and mission systems.

Jane's DS Forecast offers a unique capability with powerful online analysis tools that enable you to quickly and easily gather critical market intelligence in an intuitive, graphical format, allowing more time for essential analysis and decision-making.

## Available Markets for Jane's DS Forecast include:

Radar & RFEW • Spacecraft • Electro-Optical Infrared  
• Unmanned Systems • Military Communication • Command and Control • Sonar • Air & Missile Defence • Missile • ISR (Intelligence, Surveillance, Reconnaissance) • Precision Guided Weapons • Services • Military Aircraft • Anti-Submarine Warfare • Military Ship • Homeland Security (US only) • Military Ground Vehicle • Electronic Warfare • Commercial Aircraft

## Jane's Defence Procurement

The most comprehensive source of programme-level procurement and upgrade data

Jane's Defence Procurement provides sophisticated online data services offering detailed programme-level insight into the dynamics of the global aerospace and defence market. Daily updates enable timely identification of commercial opportunities, competitor activity tracking, supplier identification and assessments of capability and threat. Programme-level projections offer insight up to and beyond the next 20 years.

Jane's Defence Procurement covers 3 modules, available either individually or in combination as a joined-up Intelligence Centre:

- Military Aircraft
- Combat Vehicles
- Military Ships

## Features include:

**Advanced Functionality** – sophisticated filtering that eliminates any ambiguity in your results • **Concise Results** – quick and easy access to key information • **Daily Updates** – a current analysis of changes to programmes, procurement and future trends • **Exportable Data** – perform your own detailed analysis • **Economic Perspective** – essential budgetary data and analysis, at both the national and service level • **Extensive Monitoring of News and Analysis** – covers the range of IHS Jane's aerospace and defence news resources as well as continuous updates from over 500 global news sources. • **Country Profiles** – overviews of national defence procurement activity and insight into public and private manufacturing and research trends are provided as well as the key relationships driving national policy.

# Jane's Intelligence Centre Modules

## Defence

For the first time, IHS Jane's is offering targeted modules of information encompassing the complete range of our defence coverage: reference information on **Air & Space**, **Land**, and **Sea** platforms and equipment, as well as the **Systems** employed across those domains; market intelligence on the **Industry** that develops, manufactures and supplies defence equipment and technology; and the **News** that helps you pull it all together and stay current with the latest developments.

The flexible, scalable suite of Jane's Intelligence Centre Modules lets you choose the defence-related content, by subject area, that meets the needs of your organisation.

### DEFENCE | AIR & SPACE

The Intelligence Centre Module offers all the essential reference information you need on civil and military aircraft, (including helicopters and unmanned aerial vehicles) and space systems. Find detailed information on aircraft and their engines, avionics, electronic equipment, and weapons. This comprehensive content set includes aircraft in production or in development, and the latest upgrade programmes and technological advancements. Photographs, sectional drawings, and detailed specifications aid recognition, and along with manufacturers' details help you identify and evaluate competitors, partners, and their programmes.

#### Components of the Defence | Air & Space Module:

Aircraft Upgrades • All the World's Aircraft • Avionics  
• Electronic Mission Aircraft • Aero-Engines • Air-Launched Weapons • Space Systems and Industry • Unmanned Aerial Vehicles and Targets

### DEFENCE | LAND

The Intelligence Centre Module offers all the essential reference information you need on land-based military vehicles and equipment, including unmanned vehicles and systems. Find detailed information on military vehicles and logistics equipment, ammunition, armour and artillery and their upgrades, explosive ordnance disposal, infantry weapons, air defence systems, mines and mine clearance, and nuclear, biological and chemical defence. Photographs, line drawings, and detailed specifications aid recognition, and along with manufacturers' details help you identify and evaluate competitors, partners, and their programmes.

#### Components of the Defence | Land Module:

Ammunition Handbook • Armour and Artillery • Armour and Artillery Upgrades • Explosive Ordnance Disposal • Infantry Weapons • Land-Based Air Defence • Military Vehicles and Logistics • Mines and Mine Clearance • Nuclear, Biological and Chemical Defence • Police and Homeland Security Equipment  
• Unmanned Ground Vehicles and Systems

## DEFENCE | SEA

The Intelligence Centre Module offers all the essential reference information you need on naval and coast guard ships, including high-speed marine craft and unmanned vehicles and systems in service, under construction, and in development. Find information on specifications, weapons systems, propulsion systems, communications and sonar systems. Photographs, line drawings, and silhouettes aid recognition, and along with manufacturers' details help you identify and evaluate competitors, partners, and their programmes.

### Components of the Defence | Sea Module:

Fighting Ships • High-Speed Marine Transportation • Marine Propulsion • Naval Weapon Systems • Underwater Warfare Systems • Unmanned Maritime Vehicles and Systems

## DEFENCE | SYSTEMS

The Intelligence Centre Module offers all the essential reference information you need on multi-platform military systems in production, under development, or in service for the world's armed forces. Find detailed information on a range of systems, including C4I; electro-optics; military communications; radar and electronic warfare; simulation and training; and strategic weapons. For each system, easily access critical details such as technical specifications, illustrations, images, and contractor and manufacturer details.

### Components of the Defence | Systems Module:

C4I Systems • Electro-Optic Systems • Military Communications • Radar and Electronic Warfare Systems • Simulation and Training Systems • Strategic Weapon Systems

## DEFENCE | INDUSTRY

The Intelligence Centre Module offers all the essential reference information you need on manufacturers and markets for defence equipment, covering the air and space, land, and sea sectors, including aircraft components, helicopters, and naval construction and retrofits. Find detailed contact information for thousands of organisations and personnel, featuring government and diplomatic agencies, associations and defence forces, as well as manufacturers, distributors and their sales and service companies, including divisions and field offices. Also learn about key corporate activity in the global defence industry, such as commercial performance of the most significant players, recent mergers, acquisitions, divestments and more.

### Components of the Defence | Industry Module:

Aircraft Component Manufacturers • Helicopter Markets and Systems • International ABC Aerospace Directory • International Defence Directory • Naval Construction and Retrofit Markets • World Defence Industry

## DEFENCE | NEWS

The Intelligence Centre Module offers the full suite of IHS Jane's world leading defence news titles, including the award-winning Jane's Defence Weekly. Setting the standard in global defence reporting, Jane's defence magazines keep you up to date on global military activity, covering emerging geopolitical threats, current and developing defence programmes, and meaningful interpretation of events impacting the defence community around the world.

### Components of the Defence | News Module:

Defence Industry • Defence Weekly • International Defence Review • Missiles and Rockets • Navy International

# Security Intelligence Centres

## IHS Jane's Security Overview

Faster access to the accurate and reliable information you need.

IHS Jane's helps our customers make better decisions in the face of change and uncertainty, by providing accurate intelligence and insight into the world's critical national security issues. Leading militaries, governments, intelligence agencies and companies worldwide rely upon IHS Jane's impartial and insightful analysis of risks and armed forces capabilities to help anticipate future requirements. Now all of this data is available in our integrated online interfaces, giving you the entire picture relevant to your needs in one place.

Jane's Intelligence Centres pull together reference, news, analysis and imagery into complementary online groups of data, accessible by region/country and subject.

Fast and focused – advanced functionality enables the quickest access to relevant information.

Flexible – increased efficiency with a combination of advanced search technology and browsing, plus personalised toolsets and data output capabilities.

Knowledge discovery – new data structure ensures the return of all key information, giving you peace of mind that nothing relevant is missed and every avenue of investigation is uncovered.

Jane's Security Intelligence Centres feature:

- Subject-based navigation
- New search options
- Subject categorisation
- E-mail alerts
- Saved searches

Better and faster decisions begin with IHS Jane's.

### Intelligence Centre Online Seminars

All Intelligence Centre subscribers now benefit from the unique opportunity to have contact with IHS Jane's defence and security analysts and editors. Our regularly-scheduled 60-minute Online Seminars include an open Q&A session during which you can explore and discuss the topic with our experts in the level of detail driven by your requirements. In addition all events are recorded and are available for you to download, or listen to again.

Intelligence Centre Online Seminars are also available to non-Intelligence Centre Subscribers for just £199 (+VAT for UK customers only). Please visit [www.janes.com/events](http://www.janes.com/events) for more details of how to register.

## Military and Security Assessments Intelligence Centre

Combining expert analysis of the latest events and trends in political, security and military affairs with a detailed regional breakdown of global military and political structures.

Make informed decisions with IHS Jane's detailed evaluation of political, diplomatic and military capabilities. Stay steps ahead with details of conventional and asymmetric threats for every state and territory in the world. Measure and review the global terrorist and security-related activity at a country-by-country level, and plan for the protection of international human and capital assets.

An intuitive web interface delivers the fastest access to this vital intelligence ever offered.

Subject-based searches and categorised results quickly focus on the relevant information within areas such as:

- State Stability
- Serious and Organised Crime
- International Relations
- Terrorism and Insurgency
- Proliferation and Procurement

This comprehensive service also provides insight into each state's ability to counter threats, including detailed analysis of internal security and armed forces capabilities.

### Targeted content for these key tasks:

Capability Assessment • Competitive Intelligence • Defence Analysis • Market Intelligence • M&A Management • Military Operations • National Security • Procurement • Research and Development • Threat Quantification • Training

## Jane's Terrorism and Insurgency Centre

The most comprehensive and authoritative source of the latest global terrorism-related news, analysis, reference and events.

This unique service brings you the latest terrorism news, exclusive features, detailed reference and an interactive terrorist events database with an eight-year archive, giving you the most reliable and extensive collection of open source terrorism-related intelligence available. The advanced search tools allow you to quickly and effectively gain a complete profile of the world's significant terrorist, guerrilla and insurgent groups. You can also analyse terrorist activity by a wide range of criteria, including by group, country of origin, tactics, targets, political, religious or other affiliations.

Jane's Terrorism and Insurgency Centre enables you to maintain a global perspective on terrorist activity and to confidently assess the risks affecting your country or organisation's economic or strategic interests.

### Features include:

A powerful, interactive terrorist events database that is updated twice daily • Over 240 regularly updated terrorist and insurgent group profiles • Thematic analysis and country threat briefings • Archived data for news and events • Weekly briefings analysing a recent significant terrorism event or issue • Daily news digest (hourly news feed provided by NewsEdge) • Three daily e-mails to your desktop via "JTIC Flashpoints" • An interactive mapping interface that reveals patterns and trends • Images and geocoding • Case studies investigating major terrorism incidents • Graphed country statistics

## Jane's Terrorism Events Spatial Layer

Jane's Terrorism Events Spatial Layer is the most effective way to capture the terrorism threat environment.

IHS Jane's now offers a spatial layer of global terrorist and counter-terrorist activity, providing you with a comprehensive display of risks and trends. The layer is delivered as a spatially enabled data download that can be imported straight into your GIS application, enabling you to create visual snapshots of the terrorism threat environment. The ability to display the data alongside spatial layers from other sources provides a quick and easy way to view global terrorist events to include in reports and assessments.

## Jane's Chemical, Biological, Radiological and Nuclear Assessments Intelligence Centre

The comprehensive resource for global CBRN-related news, expert analysis and state-by-state assessments.

Jane's Chemical, Biological, Radiological and Nuclear Assessments (JCBRN) provides a global perspective on all factors contributing to a state's actual and potential CBRN offensive and defensive capabilities. With JCBRN you will receive in-depth, up-to-date and accurate data from our highly esteemed team of international experts.

From intelligence agencies to multi-national corporations to armed forces, JCBRN is an indispensable source that enables global leaders to identify and assess possible risks and potential opportunities. This authoritative online service delivers a broad scope of reference information and critical analysis unrivalled by any other open-source information provider.

JCBRN provides global coverage with 24 country profile pages and over 170 country capability assessments, including status of nuclear, biological and chemical capabilities.

### Access to JCBRN Assessments provides:

- Detailed country assessments of a state's offensive and defensive weapons capability and response plan resources
- The latest CBRN-related news and analysis, and exclusive features with frequently updated significant developments
- Verified information and analysis from IHS Jane's extensive global network of security and intelligence experts • A unique technical focus – assess state and non-state capabilities based on technical assessments of known facts • 19-year archived data for online news and analysis • Jane's Hot Topics – regularly updated links to news • High-res images of selected CBRN facilities and direct access to selected articles from JCBRN sources

# Jane's Intelligence Centre Modules

## Security

IHS Jane's is offering targeted modules of security-related information in three key national security-related areas: comprehensive **Country Risk** assessments of more than 220 states and territories; an in-depth look at the **Military Capabilities** of all the world's armed forces; and the latest **News** and analysis on terrorism, political, and social and economic risks and events to help put these assessments into context.

The flexible, scalable suite of Jane's Intelligence Centre Modules lets you choose the security-related content, by subject area, that meets the needs of your organisation.

### SECURITY | COUNTRY RISK

The Intelligence Centre Module offers in-depth, up-to-date and accurate data and analysis on the latest events and trends in political, social, and economic affairs, including analysis of national military capabilities. This is your comprehensive one-stop country risk information source covering more than 190 states and 30 territories. Find incisive and impartial insight and analysis to help you protect your economic, strategic and political interests, delivered by IHS Jane's worldwide network of expert and in-country contributors.

#### Components of the Security | Country Risk Module:

Sentinel-Balkans • Sentinel-Central Africa • Sentinel-Central America & Caribbean • Sentinel-Central Europe & Baltics • Sentinel-China & Northeast Asia • Sentinel-Eastern Mediterranean • Sentinel-Gulf States • Sentinel-North Africa • Sentinel-North America • Sentinel-Oceania • Sentinel-Russia & CIS • Sentinel-South America • Sentinel-South Asia • Sentinel-Southeast Asia • Sentinel-Southern Africa • Sentinel-West Africa • Sentinel-Western Europe

### SECURITY | MILITARY CAPABILITIES

The Intelligence Centre Module offers command, operational and deployment data and analysis of the world's armed forces, including the world's armies, navies, air forces, and amphibious and special forces. Gain insight on training, command and control, doctrine, strategy, and order of battle of each force. Find detailed, country-by-country data on inventory and procurement trends, enabling you to accurately assess current and potential capability to deploy and sustain national armed forces.

#### Components of the Security | Military Capabilities Module:

Amphibious and Special Forces • World Air Forces • World Armies • World Navies

### SECURITY | NEWS

The Intelligence Centre Module offers the full suite of IHS Jane's world leading security and intelligence news titles, including the recently launched *Jane's Intelligence Weekly*. This is essential reading for anyone following national, regional and international security risks, including political, social and economic threats, terrorism and insurgency and organised crime. Find detailed coverage of significant events, as well as analysis and insight into the current and emerging issues affecting international security.

#### Components of the Security | News Module:

Country Risk Daily Report • Intelligence Review • Intelligence Weekly • Islamic Affairs Analyst • Police Review • Terrorism and Security Monitor • Terrorism Watch Report

# Advertising + Marketing Solutions

With over one million users, IHS Jane's offers the best advertising and marketing solutions to ensure your business grows, whatever the market conditions.

## The best content attracts the best audience

# Jane's Strategic Advisory Services

Providing strategic consulting services to governments and businesses in the aerospace, defence and high-technology arenas.

## Building on a Century of Experience

The first name in information since 1898, IHS Jane's has provided strategic insight and expert counsel to leading corporations, governments, and agencies around the world for more than 100 years. Jane's Strategic Advisory Services (JSAS) builds on our world-leading intelligence and information services, combining specialised expertise with rigorous research and proven methodologies. We produce pragmatic, fact-based findings and recommendations to support clients' strategic objectives.

## A World of Experts on Your Side

Partnering with JSAS provides access to the Jane's Expert Network (JEN), a global network of expert analysts offering extensive experience in aerospace and defence, national security, geopolitics, threat/risk analysis and corporate strategy development. JEN acts as an information force multiplier, coalescing hundreds of prominent global leaders and decision makers in every region and industry.

## Practice Areas

JSAS services are segmented to meet the distinctive requirements of commercial and government entities.

### Corporate Services Practice

An invaluable team-mate in business development and strategic planning

#### Strategic Consultancy

- Market Forecasting
- Competitive Analysis
- Customer Analysis
- Programme Tracking
- Opportunity Identification

#### Mergers & Acquisitions Transactions Support

- Investment and Divestment Screening
- M&A Impact Analysis
- Due Diligence
- Regulatory Risk Analysis

#### Sample Engagement:

#### Military Vehicle Market and Competitive Assessment

JSAS developed a competitive pricing analysis for a client in the military transport market to inform an upcoming bid proposal effort. IHS Jane's methodology included primary and secondary research coupled with the insights gleaned from extensive price modelling and corroboration from the Jane's Expert Network. In evaluating competing manufacturers' capabilities and platforms, JSAS consultants identified average net unit pricing and highlighted key extraneous and premium costs for further consideration. As a result, the client refined its marketing and sales efforts, pricing its products more competitively, which resulted in winning a significant contract.

**The JSAS approach:**

**Government & Public Policy Practice**

Relied upon by governments around the world for assistance with defence policy, acquisition support and threat assessment

**Open Source Intelligence**

- Training
- Collection and Analysis

**Special Studies**

- Threat Assessments
- Policy Analysis
- Order of Battle (ORBAT) Studies
- Regional/Country Assessments

**Procurement Support**

- Technology Assessments
- Budget & Funding Analysis
- RFP Support
- Bid Analysis

**Workshops/Gaming**

- Alternative Futures Analysis
- Table Top Exercises/ Workshops
- System Dynamics

**Sample Engagement:**

**Open Source Intelligence**

IHS Jane's established a defence agency's Open Source Intelligence system, including appropriate collection methods, analytical tools, distribution mechanisms and workflow management processes. Leveraging the Jane's Expert Network, JSAS staffed a dedicated Open Source Intelligence Centre with former military intelligence personnel experienced in monitoring foreign media to deliver daily reports and in-depth position papers on significant emerging global developments and implications.

The agency benefited from a heightened situational awareness based on the timely delivery of focused and actionable open source intelligence.

# Alphabetical Product Listings

## Open source information – focused by IHS Jane’s

In the specialist fields of defence, security, public safety, transport and law enforcement, IHS Jane’s intelligence is a ‘must have’ resource for our clients, who can trust our intelligence over that from any other open source.

Integrated, systematic and comprehensive hard copy and electronic decision support

Our full range of products and services are available in print or electronically – online or offline, as stand alone solutions or integrated into your own systems. In order to meet your day-to-day decision-making processes these can be grouped into an extensive range of sub-categories.

### IHS Jane’s Categories chart and Alphabetical Product Listing

The IHS Jane’s Categories chart below indicates which products fit into each sub-category. More details about individual titles are available in the Alphabetical Product Listing on the following pages. Further details about which product or service is most suitable for your requirements are available from your local sales team.

# Alphabetical Product Listing

---

## Aero-Engines

---

Jane's Aero-Engines provides comprehensive details of all civil and military gas-turbine engines (turbofans, turbojets, turboprops and turboshafts) currently in use worldwide for the propulsion of manned aircraft, listed in alphabetical order by country of origin. In addition to photographs and sectional drawings, detailed specifications of each engine are provided together with development profiles. Also included are tables of data for current types of piston engine. Manufacturers' details are listed for all current engine makers.

**Online 1 user**  
£ 2,125

**Softbound**  
£ 950

---

## Air Traffic Control

---

Jane's Air Traffic Control covers the many aspects of ATC operations including airspace management, surveillance, communications, navigation, training, airfield lighting and meteorology. Detailed, current information on equipment and software used by airports and ATC authorities worldwide, including a market survey of expenditure on ATC equipment worldwide and tabulated data on the latest equipment contracts, helps track developments and locate new ATC solutions. A complete list of manufacturers, products and contact details, helps locate suppliers quickly and easily. Includes listing of navigation service providers and regulatory authorities worldwide.

## Aircraft Upgrades

---

Jane's Aircraft Upgrades contains full descriptions of the world's most significant fixed- and rotary-wing aircraft no longer in production but still in service. It is a complete resource for market intelligence, threat assessment and recognition and serves as the complete companion to Jane's All the World's Aircraft. Alphabetically, by manufacturer, there are full technical descriptions of both commercial and military aircraft, followed by the latest upgrade programmes associated with each type, particularly in the commercial sector. There are also full descriptions of the aircraft manufacturers and upgrade companies worldwide. Many of the aircraft types in operational use around the globe are no longer in full-scale production. Insight is provided into the latest technological advances for the aviation industry from every diesel engine performance upgrade to the latest precision targeting technology for military combat platforms.

## Air-Launched Weapons

---

Jane's Air-Launched Weapons is the only accessible and constantly updated guide to the world's inventories of airborne weapons. Covering well over 600 systems, in service or in development, it provides a detailed and comprehensive reference to: weapons capabilities and technology; system functionality and employment techniques; the worldwide user base; combat records; every variant, upgrade, and future enhancements. Entries are partnered with extensive analysis tables covering individual weapon types, national inventories and aircraft weapon loads. The guide documents the world's air-to-air and air-to-surface missiles, bombs, rockets, guns and underwater weapons, including new and emerging weapons yet to enter front-line service.

## Airports, Equipment and Services

---

Jane's Airports, Equipment and Services, the definitive industry standard, is the essential global reference source for airport and airline decision-makers. Indeed in some Asian countries, it is mandatory for a manufacturer's products to be detailed here in order to qualify to tender for airport contracts. Reviews and analyses of products and services from over 1,900 specialist airport contractors provide a comprehensive overview of what is available, including new developments, installations and projects. Details include tow tractors and emergency vehicles to security systems and maintenance equipment, company details, key personnel, how equipment and systems work, and information on planning, design, construction, security and management services.

## All the World's Aircraft

---

Jane's All the World's Aircraft sets the standard in aviation reference. It provides exhaustive technical detail on over 1,000 civil and military aircraft currently being produced or under development by more than 600 companies. Photographs and line drawings aid recognition and comparison, giving you the ability to evaluate competitors, recognise trends in aerospace development, identify potential buyers and select business partners. You can check key specifications for any aircraft, including dimensions, performance, structure, landing gear, power plants and armaments. In addition, there are details of the world's aircraft manufacturers and their programmes, so you can identify key contracts, production rates, customers and order backlogs.

## Electro-Optic Systems

---

The new edition of Jane's Electro-Optic Systems continues to evolve, with content overhaul and revision, to provide you with a focussed overview of major military electro-optic systems, sub-systems and components, together with systems incorporating electro-optic elements in production, under development or in-service with the armies, navies and air forces throughout the world. This authoritative resource focuses on almost all thermal imaging, image intensifier and laser modules used in surveillance, weapon sight, fire-control and reconnaissance systems, ensuring you stay on top of current developments in this key area. Each entry identifies the manufacturer, traces the development history, describes the specific characteristics and, wherever possible, operational status of the systems. Wherever possible the main technical specifications are provided to help you compare the performance of over 1,200 items of electro-optic equipment worldwide.

## Mass Casualty Handbook: Hospital

---

Jane's Mass Casualty Handbook: Hospital is designed for physicians, nurses and other hospital-based personnel responding to mass casualty incidents, particularly chemical, biological, radiological, nuclear or explosive incidents. The handbook provides focused guidance in developing emergency management capabilities, including an effective and robust Emergency Operations Plan (EOP). The procedures and policies recommended are practical, cost-effective, sustainable and applicable for all hazards and day-to-day operations. Background information, general guidelines and system requirements allow each healthcare facility to make use of the material according to their specific needs, while building on existing standards and procedures such as HEICS and JCAHO. The handbook also provides principles and checklists aimed at enhancing preparedness, whilst adhering to a 'system approach' by offering helpful hints to encourage management, doctors and other hospital staff to work together.

## World Insurgency and Terrorism

---

Jane's World Insurgency and Terrorism (JWIT) profiles significant terrorist and insurgent movements currently operating worldwide. Each profile begins with an 'at-a-glance' summary of the group, providing a concise overview of its current status. More in-depth analysis then provides a threat assessment for the group, and examines aims and objectives; tactics and targeting; areas of operation; personnel, recruitment and group structure; logistics and financing; operational readiness; alliances and rivalries; information campaigns; and campaign chronology. Regular updates are provided for active groups, allowing you to keep track of terrorist activity globally and ensure that notable shifts in doctrine, leadership and capabilities are captured. The portfolio of profiles is continually deepened as new groups emerge, thereby providing the greatest level of coverage and analysis possible.
